

Rmarkup Example 2

Søren Højsgaard

```
[1] "2012-06-14 23:08:08"
```

In this example we embed parts of the examples from the `kruskal.test` help page into an HTML document:

```
> data(airquality)
> kruskal.test(Ozone ~ Month, data = airquality)

Kruskal-Wallis rank sum test

data:  Ozone by Month
Kruskal-Wallis chi-squared = 29.2666, df = 4, p-value =
6.901e-06
```

which shows that the location parameter of the Ozone distribution varies significantly from month to month.

Notice that there are 153 observations.

Finally we include a boxplot of the data :

```
> boxplot(Ozone ~ Month, data = airquality)
```
